

4.3. Small Sided Football Selection Process

AGE GROUPING

Players will be placed in the age group relative to the year they were born. Players may desire to move up to play in the age group to be with their friends, this will be managed at the discretion of the Junior Development Officer and/or Technical Director. If players request to play down an age group this is a process that may be managed by Football Queensland.

Any requests to play outside of the age group will be managed on a case-by-case basis.

PLAYING FOR FUN

At Holland Park Hawks FC we aim to put the player first in all cases. Our job is to create a fun and engaging environment for all players, and this is further pronounced in the community space.

Upon registration, please add as many details as you can i.e., Team you played in last year, existing friends who play at the Football Club, or school you attend. This way our staff can group you with players who the player is familiar with to facilitate a positive experience at the football club.

We will make every effort to accommodate requests for team placement, but we cannot guarantee each player will be placed with the friends. The Club decisions on team placements are final.

Players are not graded in the community space (U6 – U12) however where possible we try to create like v like environments.
